

Project Financing Services

Financial fitness starts here

Financial fitness is no longer an option — it's a business imperative. Project financing and equipment leasing are excellent ways to reduce the strain on an organization's capital needs. Take advantage of spreading the cost of technology improvements over time to keep your cash flow fit and healthy.

As an experienced project financing partner, Xpert provides the end-to-end capabilities, services and partnerships required to tackle financial challenges at scale — all under one roof.

Advantage of Fair Market Value Leasing

With an FMV lease, you pay only for the use of the equipment during the lease term. Your lease payments take into account residual value: the estimated value of the equipment at the end of the lease.

This means that your lease payments are based on the value of the equipment that you will actually use, therefore resulting in a lower payment versus a loan or outright purchase.

Xpert can help you meet today's IT challenges by providing experienced finance and lease professionals to help you select the most advantageous financing option. Our qualified financial consultants will work with you to understand your project requirements and your organization's objectives.

Our financial services representatives help you every step and aspect of your journey:

- Select the best financing instrument
- Negotiate the lease or loan terms
- Match the equipment type to the best funding source
- Expedite the document transmittals for timely closings

Benefits

Improve cash flow with predictable monthly payments

Lower cost of IT use compared to purchase

Increase IT flexibility via end of lease options

Achieve a sustainable approach to IT lifecycle management that helps reduce costs

Leasing and lending made simple

1. Select equipment

Financing for just about any piece of equipment your business needs, including:

- Restaurant equipment
- Computer hardware & software
- POS terminals
- Construction equipment
- Commercial vehicles
- Capital equipment
- Professional services
- Maintenance services

2. Select financing option

Get the payment choices you're looking for with our flexible financing options.

- \$1 Buyout: Available as a lease or an Equipment Financing Agreement (EFA)
- Fair Market Value: Get a lower lease payment. At the end of the term, purchase the equipment or return it.
- Net Terms: Buy now and pay later with financing for 30, or 60 days.

3. Make payments

Equipment financing products offer a wide variety of payment options and schedules.

- Payment Interval: choose from Monthly, Seasonal, 30/60/90 Day Deferred Payment

Our approach
